SMALL BUSINESS

This package is for small companies and individuals that have no significant financial means for sustaining internet administration.

The packet enables basic representation, through standard zones (about us, services and other info pages), information and news editing is completely automated and under client control (blog structure), and there are some external modules available like Picasa web album, for showing huge number of pictures and photographs.

Package has very low developing and service costs, if there is any need for servicing at all.

Developing deadline is 7 days maximum.
